

NARVA AMERICAN SPACE Monthly Report – July 2019

As July was mostly a month off for the American Space; hence the small number of events and participants.

New and most popular programs:

	<h3>Russian Speaking Club</h3> <p><u>Themes:</u> How to introduce yourself, philosophical themes, “guess a secret thing”(describing a thing by using adjectives only), life in a city (parts of the city), metaphors, an interview with a journalist.</p> <p>American university students studying Russian at the Narva College of the University of Tartu took weekly informal Russian conversation classes at the Narva American Space to become more fluent and confident language users while communicating with local native Russian speakers. The Russian language program at the Narva College has been run in cooperation with the University of Pittsburgh Reserve Officers’ Training Corps (ROTC) cadets for six years in a row.</p>
--	--

On July 31, Estonian Public Broadcasting Company's Russian-language ETV+ dropped in and asked the students a few questions.

3-D Master Classes

This is a continuation of a master class series on 3D printing, laser cutting, and seeking innovative approaches for introducing new ideas in the MakerLab innovation laboratory at Narva American Space.

American Space Tour

The tours of the American Space are conducted in Russian, English, or Estonian, depending on the guests' preference. During the tour, we talk about the space mission, activities, and demonstrate 3D printer and laser cutter items made during the workshops.
